

# UQ Skills Programs

for Secondary Schools and Year 13

UQ Skills is a registered RTO approved by the Queensland Government to offer subsidised training for select courses including secondary school Certificate II programs, Year 13 Free tafe programs and other funded partnerships, apprenticeships and post-secondary training.

## Secondary Schools CII (non-ATAR) and CIII (ATAR)

UQ Skills offers a range of Certificate II funded programs for Year 10, 11 and 12 students.

Certificate III programs, which are not funded but packaged within their CII funded counterparts, can be offered at a low 'Fee for Service' price.

For example, as there is no funding offset for CIII qualifications under VETiS, those existing secondary schools undertaking CII in Rural Operations in 2020 with UQ Skills will be eligible to enrol into the Certificate III in Rural Operations (AHC32816) at a cost of only \$500.

UQ Skills also offer flexible delivery modes to suit the needs of Queensland schools including:

- Delivery modes from online, blended and/or face to face depending on the cohort or School needs
- Onsite (at the School) and/or offsite delivery locations
- Intensive block training at the School, at a UQ campus location or a training camp at the Gatton Campus
- Third-party arrangements for equipped high schools who would like to deliver the training and/or assessment in-house under UQ Skills supervision.

## Year 13 Free tafe programs

As an approved provider, UQ Skills also offers 'Free tafe' programs to eligible Year 13 students who may want to enter the industry workforce and/or prepare for future studies in higher education.

## Types of training

UQ Skills offers a range of training options from Traineeships and Apprenticeships to traditional training deliveries. Approved courses offered as a Traineeships and Apprenticeship are funded by the Queensland Government under User Choice program at no cost to school based students.
