# A message from the Principal

Welcome to St Joseph's College, Toowoomba. On behalf of the St Joseph's College Community I invite you to discover our College and what characterises education here.

St Joseph's College was founded in 1956 by the Christian Brothers for boys from Years 4-10. Today, we are a Catholic, co-educational College for young women and men in Years 7-12. Our College is built on the legacy of the Christian Brothers and we proudly continue to be driven by our commitment to serve others based on the ideals and values of Edmund Rice and the Christian Brothers.

Our College Mission Statement calls us to provide a liberating education, inspired by Christian principles that permeate all aspects of College life. In this way we provide every avenue for our young people to be respectful of the truth, open to reality, community orientated, and willing to strive to grow as individuals making the most of their unique gifts.

We are immensely proud of the opportunities that are afforded to students here at St Joseph's College. With a wide ranging co-curricular, cultural and sporting program, excellence in learning and teaching, and faith formation and prayer life, we are able to partner with you in developing young women and men who are prepared for a dynamic world.

The staff at St Joseph's College have a deep passion for ensuring that each student is provided with the opportunity to engage in a quality, holistic and inclusive Catholic education. This passion for providing a holistic education, combined with a commitment to the ongoing development of modern educational facilities and the prioritisation of the allocation of resources to improving student outcomes, makes St Joseph's College a wonderful school community of which to be a part.

Please do not hesitate to contact the College should you require any further information.

Kort Goodman Principal

#### **School Information**

Office Hours: 8am – 4pm

Location: 54 James Street, Toowoomba QLD 4350. Postal Address: PO Box 577, Toowoomba QLD 4350.

Telephone Number: 07 4631 8500 Fax Number: 07 4631 8599

Enrolment Email: enrolments@sjc.qld.edu.au

Office Email: office@sjc.qld.edu.au

Web Address: www.sjc.qld.edu.au

#### **Our Vision Statement**

St Joseph's College is an educational community focused on the Spirit of Jesus. It aims to nurture in all who join it:

an alive and deepening search for God present-amongst-us in the world;

an expectation that to educate each person to his/her potential is a journey to self, and from self, to the world beyond;

an appreciation that growth which happens differently for each person needs space and time to truly bear fruit; and

a commitment to the life and energy of this community to enable good to happen.

### **Our Mission Statement**

At St Joseph's College, Christian principles permeate all aspects of College life. It is where an atmosphere of Christian Spirit and values takes precedence, so that the student's gift of faith may be nurtured, internalised and integrated with the culture of our times.

St Joseph's College will cultivate intellectual values, will promote integrity, honest, truth, openness, and respect for scholarly virtues. Each student will be encouraged and assisted to achieve to the best of his or her abilities.

The College's programs will encourage students to develop skills of inquiry, research, explanation and critical awareness. The College will assist students' growth as individual with unique gifts and will foster an environment within which students grow towards an inner-directed sense of discipline. Students will be encouraged to reach out to, and learn from those in need, within and beyond the College. The application of Christian principles in all aspects of College like maintains an evolution between the Christian values in espouses and its policies and practices.

# **Senior School Program**

Entering Year 11 and 12 signifies an important time in a student's educational journey at St Joseph's College. Students have an exciting opportunity to choose their desired pathway and courses of study based on interest and ability, with an eye to future directions for study and careers. Our Senior Subject Handbook provides general information which will enable students and parents of St Joseph's College to examine specific details about course content and understand pathways available to students entering Year 11 and 12. The Senior Studies Program is designed so that all students select six subjects or courses of study. This may include General and Applied subjects, VET courses, School Based Traineeships or Apprenticeships.

Senior Curriculum Handbook

Page 11

At St Joseph's College in the Senior Years, we offer a range of pathways to meet the diverse needs and aspirations of all our senior students. We aim to:

- Engage students in their learning to ensure depth of knowledge and depth of understanding. We strive to develop students' capacity to learn and promote self-efficacy by encouraging students to take an active role in their own learning.
- Value each student as an individual and work collaboratively with students and parents to select
  a pathway that meets students' diverse needs and aspirations. This is accomplished through a
  Senior Curriculum which caters for each student's specific needs through our academic
  curriculum, vocational education and training pathways and other study options such as TAFE
  or Headstart programs.
- Provide students with information, advice and options that allow them to make informed choices about their learning to enhance future pathways and employability.
- Celebrate achievement and success.

#### **Year 10 Students**

For students in Year 10, this guide should be used to learn about the QCE and map out a program of study for the final two years at St Joseph's College. Assistance in selecting subjects will be provided through the Student Education Training Plan (SET Plan) Process. The SET Plan process will begin in Term 3 with students and parents attending a SET Plan interview. In order to make the most of the available opportunities, it is important for each student to map out a personal learning pathway for the senior years that is well-informed. Much reflection, planning, information and advice is necessary to facilitate decision-making to ensure that choices made enable students to meet career and personal aspirations, provide academic challenge and experiences necessary for future success.

In making choices for the senior phase of learning, it is important to identify learning pathways and subjects that:

- you enjoy and reflect your interests
- reflect your ability and or aptitude
- meet the prerequisites of your intended pathway
- provide appropriate challenge, engagement and 'aspire you to excellence'
- allow you to meet your career and employment goals
- develop skills, knowledge and attitudes useful throughout life
- allow you to ensure a balance with school and outside commitments

# Glossary of Key Terms – Senior Years

#### **ATAR**

The Australian Tertiary Admission Rank (ATAR) is the primary criterion for entry into most undergraduateentry university programs in Australia. It was gradually introduced during 2009 and 2010 to replace the Universities Admission Index, Equivalent National Tertiary Entrance Rank and Tertiary Entrance Rank.

#### **Compulsory Participation Phase**

From 2006, young people finishing Year 10 are required to participate in education and/or training for a further two (2) years. This is called the Compulsory Participation Phase of Schooling.

#### **Learning Account**

The Learning Account is opened for each student with the QCAA and records all learning achievements earned by the student during their Senior Phase of Learning. The achievements of students at school will be recorded by the school in their Learning Account. Achievements by students through other learning providers such as TAFE or accredited groups such as the Australian Music Examination Board (AMEB) will be recorded directly by those providers into the student's Learning Account with QCAA.

#### **Learners Unique Identifier (LUI)**

The Learners Unique Identifier (LUI) is the Learning Account registration number and password which identifies each student in the Senior Phase of Learning with the QCAA. Students are able to use their LUI to access their own Learning Account with the QCAA as well as access a range of helpful websites relevant to their learning and their future study and career paths.

## **Queensland Curriculum and Assessment Authority (QCAA)**

QCAA issues the Senior Statement showing a student's subject results, and a Tertiary Entrance Statement.

## **Queensland Tertiary Admissions Centre (QTAC)**

QTAC handles tertiary- entrance applications on behalf of tertiary institutions. If a student wants to apply for a tertiary course, they will need to do so through QTAC for most courses.

# **Queensland Certificate of Education (QCE)**

The QCE will be awarded to all students completing the requirements. The QCE is Queensland's senior schooling qualification. It is internationally recognised and offers flexibility in what is learnt, as well as where and when learning occurs.

Page 14

# **Senior Education Profile**

Students in Queensland are issued with a Senior Education Profile (SEP) upon completion of senior studies. This profile may include a:

Statement of Results

Queensland Certificate of Education (QCE)

Queensland Certificate of Individual Achievement (QCIA).

#### Statement of Results

Students are issued with a statement of results in the December following the completion of a QCAA-developed course of study. A new statement of results is issued to students after each QCAA-developed course of study is completed. A full record of study will be issued, along with the QCE qualification, in the first December or July after the student meets the requirements for a QCE.

## **Queensland Certificate of Education (QCE)**

Students may be eligible for a Queensland Certificate of Education (QCE) at the end of their senior schooling. Students who do not meet the QCE requirements can continue to work towards the certificate post-secondary schooling. The QCAA awards a QCE in the following July or December, once a student becomes eligible. Learning accounts are closed after nine years; however, a student may apply to the QCAA to have the account reopened and all credit continued.

# **Queensland Certificate of Individual Achievement (QCIA)**

The Queensland Certificate of Individual Achievement (QCIA) reports the learning achievements of eligible students who complete an individual learning program. At the end of the senior phase of learning, eligible students achieve a QCIA. These students have the option of continuing to work towards a QCE post-secondary schooling.

For further information please refer to:

https://www.gcaa.gld.edu.au/senior/new-snr-assessment-te.

# **Senior Subjects**

The QCAA develops four types of senior subject syllabuses — General, Applied, Senior External Examinations and Short Courses. St Joseph's College will be offering General, Applied and VET courses.

Results in General and Applied subjects and VET certificates contribute to the award of a QCE and may contribute to an Australian Tertiary Admission Rank (ATAR) calculation, although no more than one result in an Applied subject can be used in the calculation of a student's ATAR.

Extension subjects are extensions of the related General subjects and are studied either concurrently with, or after, Units 3 and 4 of the General courses.

Typically, it is expected that most students will complete these courses across Years 11 and 12. All subjects build on the P–10 Australian Curriculum.

# **General Syllabuses**

General subjects are suited to students who are interested in pathways beyond senior secondary schooling that lead primarily to tertiary studies and to pathways for vocational education and training and work. General subjects include Extension subjects.

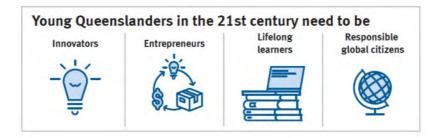

# **Applied Syllabuses**

Applied subjects are suited to students who are primarily interested in pathways beyond senior secondary schooling that lead to vocational education and training or work.

# **Underpinning Factors**

All senior syllabuses are underpinned by:

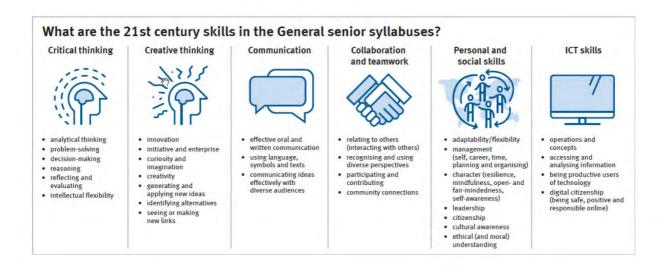

- Literacy the set of knowledge and skills about language and texts essential for understanding and conveying content.
- Numeracy the knowledge, skills, behaviours and dispositions that students need to use
  mathematics in a wide range of situations, to recognise and understand the role of mathematics in the
  world, and to develop the dispositions and capacities to use mathematical knowledge and skills
  purposefully.

#### **General Syllabuses**

In addition to literacy and numeracy, General syllabuses are underpinned by 21st century skills — the attributes and skills students need to prepare them for higher education, work and engagement in a complex and rapidly changing world. These include critical thinking, creative thinking, communication, collaboration and teamwork, personal and social skills, and information & communication technologies (ICT) skills.

## **Applied Syllabuses**

In addition to literacy and numeracy, applied syllabuses are underpinned by:

- applied learning the acquisition and application of knowledge, understanding and skills in real-world
  or lifelike contexts
- community connections the awareness and understanding of life beyond school through authentic, real-world interactions by connecting classroom experience with the world outside the classroom
- core skills for work the set of knowledge, understanding and non-technical skills that underpin successful participation in work.

## **Vocational Education and Training (VET)**

Students can access VET programs through the school if it:

- is a registered training organisation (RTO)
- has a third-party arrangement with an external provider who is an RTO
- offers opportunities for students to undertake school-based apprenticeships or traineeships.

## Australian Tertiary Admission Rank (ATAR) Eligibility

The calculation of an Australian Tertiary Admission Rank (ATAR) will be based on a student's:

- best five General subject results or
- best results in a combination of four General subject results plus an Applied subject result or a Certificate III or higher VET qualification.
- The Queensland Tertiary Admissions Centre (QTAC) has responsibility for ATAR calculations.

# **English Requirement**

Eligibility for an ATAR will require satisfactory completion of a QCAA English subject.

Satisfactory completion will require students to attain a result that is equivalent to a Sound Level of Achievement in one of the following subjects — English, Essential English or Literature. While students must meet this standard to be eligible to receive an ATAR, it is not mandatory for a student's English result to be included in the calculation of their ATAR.

# **General Syllabuses**

#### **Structure**

The syllabus structure consists of a course overview and assessment.

#### **General Syllabuses Course Overview**

General syllabuses are developmental four-unit courses of study.

Units 1 and 2 provide foundational learning, allowing students to experience all syllabus objectives and begin engaging with the course subject matter. It is intended that Units 1 and 2 are studied as a pair. Assessment in Units 1 and 2 provides students with feedback on their progress in a course of study and contributes to the award of a QCE. Students should complete Units 1 and 2 before starting Units 3 and 4. Units 3 and 4 consolidate student learning. Assessment in Units 3 and 4 is summative and student results contribute to the award of a QCE and to ATAR calculations.

#### **Extension Syllabuses Course Overview**

Extension subjects are extensions of the related General subjects and include external assessment. Extension subjects are studied either concurrently with, or after, Units 3 and 4 of the General course of study. Extension syllabuses are courses of study that consist of two units (Units 3 and 4). Subject matter, learning experiences and assessment increase in complexity across the two units as students develop greater independence as learners.

The results from Units 3 and 4 contribute to the award of a QCE and to ATAR calculations.

#### **Assessment**

#### **Units 1 and 2 Assessments**

Schools decide the sequence, scope and scale of assessments for Units 1 and 2. These assessments should reflect the local context. Teachers determine the assessment program, tasks and marking guides that are used to assess student performance for Units 1 and 2.

Units 1 and 2 assessment outcomes provide feedback to students on their progress in the course of study. Schools should develop at least two but no more than four assessments for Units 1 and 2. At least one assessment must be completed for each unit.

Schools report satisfactory completion of Units 1 and 2 to the QCAA, and may choose to report levels of achievement to students and parents/carers using grades, descriptive statements or other indicators.

#### **Units 3 and 4 Assessments**

Students complete a total of four summative assessments — three internal and one external — that count towards the overall subject result in each General subject. Schools develop three internal assessments for each senior subject to reflect the requirements described in Units 3 and 4 of each General syllabus.

The three summative internal assessments need to be endorsed by the QCAA before they are used in schools. Students' results in these assessments are externally confirmed by QCAA assessors. These confirmed results from internal assessment are combined with a single result from an external assessment, which is developed and marked by the QCAA. The external assessment result for a subject contributes to a determined percentage of a students' overall subject result. For most subjects this is 25%; for Mathematics and Science subjects it is 50%.

#### **Instrument-Specific Marking Guides**

Each syllabus provides instrument-specific marking guides (ISMGs) for summative internal assessments. The ISMGs describe the characteristics evident in student responses and align with the identified assessment objectives. Assessment objectives are drawn from the unit objectives and are contextualised for the requirements of the assessment instrument.

Schools cannot change or modify an ISMG for use with summative internal assessment.

As part of quality teaching and learning, schools should discuss ISMGs with students to help them understand the requirements of an assessment task.

#### **External Assessment**

External assessment is summative and adds valuable evidence of achievement to a student's profile. External assessment is:

- common to all schools
- administered under the same conditions at the same time and on the same day
- developed and marked by the QCAA according to a commonly applied marking scheme.

The external assessment contributes a determined percentage (see specific subject guides — assessment) to the student's overall subject result and is not privileged over summative internal assessment.

# **Applied Syllabuses**

#### **Structure**

The syllabus structure consists of a course overview and assessment.

#### **Applied Syllabuses Course Overview**

Applied syllabuses are developmental four-unit courses of study.

Units 1 and 2 of the course are designed to allow students to begin their engagement with the course content, i.e. the knowledge, understanding and skills of the subject. Course content, learning experiences and assessment increase in complexity across the four units as students develop greater independence as learners. Units 3 and 4 consolidate student learning. Results from assessment in Applied subjects contribute to the award of a QCE and results from Units 3 and 4 may contribute as a single input to ATAR calculation. A course of study for Applied syllabuses includes core topics and elective areas for study.

#### **Assessment**

Applied syllabuses use four summative internal assessments from Units 3 and 4 to determine a student's exit result. Schools should develop at least two but no more than four internal assessments for Units 1 and 2 and these assessments should provide students with opportunities to become familiar with the summative internal assessment techniques to be used for Units 3 and 4. Applied syllabuses do not use external assessment.

#### **Instrument-specific Standards Matrixes**

For each assessment instrument, schools develop an instrument-specific standards matrix by selecting the syllabus standards descriptors relevant to the task and the dimension/s being assessed. The matrix is shared with students and used as a tool for making judgments about the quality of students' responses to the instrument. Schools develop assessments to allow students to demonstrate the range of standards.

# **Essential English and Essential Mathematics — Common Internal Assessment**

Students complete a total of four summative internal assessments in Units 3 and 4 that count toward their overall subject result. Schools develop three of the summative internal assessments for each senior subject and the other summative assessment is a common internal assessment (CIA) developed by the QCAA. The common internal assessment (CIA) for Essential English and Essential Mathematics is based on the learning described in Unit 3 of the respective syllabus.

#### The CIA is:

- developed by the QCAA
- common to all schools
- delivered to schools by the QCAA
- · administered flexibly in Unit 3
- administered under supervised conditions
- marked by the school according to a common marking scheme developed by the QCAA.

The CIA is not privileged over the other summative internal assessment.

# **Summative Internal Assessment — Instrument-specific Standards**

The Essential English and Essential Mathematics syllabuses provide instrument-specific standards for the three summative internal assessments in Units 3 and 4.

The instrument-specific standards describe the characteristics evident in student responses and align with the identified assessment objectives. Assessment objectives are drawn from the unit objectives and are contextualised for the requirements of the assessment instrument.

Page 22

## **Queensland Certificate of Education**

#### About the QCE

The Queensland Certificate of Education (QCE) is Queensland's senior secondary schooling qualification. It is internationally recognised and provides evidence of senior schooling achievements.

The flexibility of the QCE means that students can choose from a wide range of learning options to suit their interests and career goals. Most students will plan their QCE pathway in Year 10 when choosing senior courses of study. Their school will help them develop their individual plan and a QCAA learning account will be opened.

To receive a QCE, students must achieve the set amount of learning, at the set standard, in a set pattern, while meeting literacy and numeracy requirements. The QCE is issued to eligible students when they meet all the requirements, either at the completion of Year 12, or after they have left school.

# **QCE** requirements

As well as meeting the below requirements, students must have an open learning account before starting the QCE, and accrue a minimum of one credit from a Core course of study while enrolled at a Queensland school.

Set amount 20 credits from contributing courses of study, including:

- QCAA-developed subjects or courses
- vocational education and training (VET) qualifications
- · non-Queensland studies
- · recognised studies.

Set pattern 12 credits from completed Core courses of study and 8 credits from any combination of:

- Core
- Preparatory (maximum 4)
- Complementary (maximum 8).

Satisfactory completion, grade of C or better, competency or qualification completion, pass or equivalent.

Students must meet literacy and numeracy requirements through one of the available learning options.

# More information

For more information about the QCE requirements, see the following factsheets, which are available on the QCAA website at www.qcaa.qld.edu.au:

- QCE credit and duplication of learning
- · QCE credit: completed Core requirement
- · QCE literacy and numeracy requirement.

Within the set pattern requirement, there are three categories of learning — Core, Preparatory and Complementary. When the set standard is met, credit will accrue in a student's learning account.

To meet the set pattern requirement for a QCE, at least 12 credits must be accrued from completed Core courses of study. The remaining 8 credits may accrue from a combination of Core, Preparatory or Complementary courses of study.

#### Core: At least 12 credits must come from completed Core courses of study

COURSE	OCE CREDITS PER COURSE
QCAA General subjects and Applied subjects	up to 4
QCAA General Extension subjects	up to 2
QCAA General Senior External Examination subjects	up to 4
Certificate II qualifications	up to 4
Certificate III and IV qualifications (includes traineeships)	up to 8
School-based apprenticeships	up to 6
Recognised studies categorised as Core	as recognised by QCAA

#### Preparatory: A maximum of 4 credits can come from Preparatory courses of study

QCAA Short Courses	
QCAA Short Course in Literacy     QCAA Short Course in Numeracy	up to 1
Certificate I qualifications	up to 3
Recognised studies categorised as Preparatory	as recognised by QCAA

#### Complementary: A maximum of 8 credits can come from Complementary courses of study

QCAA Short Courses QCAA Short Course in Aboriginal & Torres Strait Islander Languages QCAA Short Course in Career Education	up to 1
University subjects	up to 4
Diplomas and Advanced Diplomas	up to 8
Recognised studies categorised as Complementary	as recognised by QCAA

The literacy and numeracy requirements for a QCE meet the standards outlined in the Australian Core Skills Framework (ACSF) Level 3.

To meet the literacy and numeracy requirement for the QCE, a student must achieve the set standard in one of the literacy and one of the numeracy learning options:

#### Literacy

- · QCAA General or Applied English subjects
- · QCAA Short Course in Literacy
- Senior External Examination in a QCAA English subject
- FSK20113 Certificate II in Skills for Work and Vocational Pathways
- International Baccalaureate examination in approved English subjects
- Recognised studies listed as meeting literacy requirements

#### Numeracy

- QCAA General or Applied Mathematics subjects
- QCAA Short Course in Numeracy
- Senior External Examination in a QCAA Mathematics subject
- FSK20113 Certificate II in Skills for Work and Vocational Pathways
- International Baccalaureate examination in approved Mathematics subjects
- Recognised studies listed as meeting numeracy requirements

# Pathways at St Joseph's College

All students enrolled at St Joseph's College will build and engage in a course of study that provides them with opportunities to achieve their QCE/QCIA and 'aspire to excellence'. Furthermore, Years 11 and 12 provide opportunities for further specialisation to allow for students to achieve their desired post schooling pathways. In selecting a course of study, student should create a study program based on subject areas:

- that align with pathway goals
- meet required prerequisites for further study
- · lead to a preferred career pathway
- they enjoy and have experienced success in.

In selecting a combination of subjects, students should carefully consider whether they wish to be ATAR eligible and ensure subject selections meet ATAR requirements (four General Subjects).

If direct entry to University is not part of a student's career pathway, they should look to subject subjects that are Applied or Certificate courses.

ATAR Eligibility components:		
Satisfactory completion of a QCAA English subject		
(the English result will only be used for ATAR calculation it is one of the best five subjects)		
Best <b>five</b> QCAA General	Or	Best <b>four</b> QCAA General subjects
subjects		+
		The best result of:
		QCAA Applied Subject
		Certificate III
		Certificate IV
		Diploma
		Advanced Diploma

To 'aspire to excellence' in Years 11 and 12, students should:

- select subjects they have a genuine interest in
- have made considered pathway choices and know what a realistic pathway is for them
- know prerequisites for University courses
- be prepared to 'learn in community', 'participate' and 'persevere'.

# **Prerequisite Table for 2022**

QCAA General Subjects				
SENIOR GENERAL SUBJECT	PREREQUISITE			
Accounting (PDF, 1016.0 KB)	C in English and Mathematics.			
Biology (PDF, 1.7 MB)	B in the Year 10 Science & English.			
Chemistry (PDF, 1.9 MB)	B in the Year 10 Science 1, Mathematics & English.			
Design (PDF, 2.2 MB)	English.			
Digital Solutions (PDF, 1.6 MB)	C in English and Mathematics.			
Drama (PDF, 1.5 MB)	Recommended study of Year 10 Drama			
Economics (PDF, 1.1 MB)	C in Year 10 English.			
English (PDF, 1.4 MB)	B in Year 10 English.			
French (PDF, 963.8 KB)	Pre-requisite study of French in Year 10.			
General Mathematics (PDF, 1.7 MB)	At least a C standard in Year 10 Mathematics.			
Geography (PDF, 1.7 MB)	C in Humanities & English.			
Japanese (PDF, 1.3 MB)	Pre-requisite study of Japanese in Year 10.			
Legal Studies (PDF, 1.1 MB)	B in Humanities & English.			
Literature (PDF, 1.3 MB)	B standard in Year 10 English.			
Mathematical Methods (PDF, 1.7 MB)	B standard in Year 10 Mathematics Extension.			
Modern History (PDF, 1.8 MB)	B in Humanities & English.			
<u>Music</u> (PDF, 1.5 MB)	Recommended to have studied Year 10 Music.  Alternatively, private music tuition or AMEB study			
	would be beneficial.			
Music Extension (PDF, 924.5 KB)	Students must have achieved at least a B in Year 11			
	Music. The offer to study Music Extension in Year 12			
	will be based upon review of students' academic portfolios from Year 11 Music.			
Physical Education (PDF, 1.8 MB)	C in English and Year 10 HPE			
Physics (PDF, 1.9 MB)	B in Year 10 Science 1 and B in Mathematics			
Psychology (PDF, 1.9 MB)	B in Year 10 Science 1 or 2 and B in Mathematics			
Specialist Mathematics (PDF, 2.2 MB)	Mathematical Methods (co-requisite).			
CPS CHARLES MALIONIALISM	B in Year 10 Extension Mathematics			
Study of Religion (PDF, 1.0 MB)	C in Year 10 English and Religion			
Visual Art (PDF, 1.7 MB)	C in Year 10 English.

# **Vocational Education Training**

St Joseph's College is recognised as a leader in Vocational Educational Training (VET). We focus on empowering students to meet the challenges of the continually evolving world in which they live. We pride ourselves on the close connections and partnerships established with industry and present opportunities for our students to develop knowledge and practical skills in an industry simulated setting.

Our Trades Skills Centre is a leading facility, providing students with access to:

- a fully equipped commercial kitchen and engineering workshop
- · improved transition to work or further education and training
- industry networking partnerships
- qualified staff who are have currency with industry practices

Our VET students exit with real industry skills and nationally recognised qualifications, creating a pathway into many occupations.

In the new QCE system, achievement of a VET Certificate III or above, in combination with results in General subjects, can contribute to the calculation of a student's Australian Tertiary Admission Rank (ATAR). The approach recognises the role that VET plays in senior studies and the transition to employment, vocational and higher education pathways, while also ensuring that students have a sufficient breadth of academic subjects to cope with the demands of tertiary study.

Stand Alone VET Subjects				
SENIOR VET SUBJECT	PREREQUISITE			
ICT30120 Certificate III in Information Technology	No pre-requisite is required.			
SIT20416 Certificate II in Kitchen Operations	Should have completed at least one semester of Junior Home Economics.			
BSB30120 Certificate III in Business	No pre-requisite is required.			
MEM20413 Certificate II in Engineering Pathways	Should have undertaken a Metalwork subject in Year 9 or 10.			
CPC10120 Certificate I in Construction	Should have undertaken a Woodwork subject in			
(Students Complete this course in Year 11) and enroll in Building and Construction Skills Course (QCAA Applied)	Year 9 or 10.			
SIS30115/SIS20115 Certificate III/Certificate II in Sport and Recreation (dual qualification). All students will enroll in the Certificate III Qualification	No pre-requisite is required.			

# **QCAA Senior Syllabuses- General and Applied**

Please note that although the College is offering these subjects it will depend on student choice after the Subject Selection Evening.

The College may not be able to offer a subject due to class sizes or timetabling constraints. For the senior subjects below: (G) is a General Subject and (A) is an Applied Subject.

#### Religion

- (G) Study of Religion
- (A) Religion & Ethics

#### **English and Languages**

- (G) English
- (G) Literature
- (A) Essential English
- (G) French
- (G) Japanese

#### **Mathematics**

- (G) General Mathematics
- (G) Mathematical Methods
- (G) Specialist Mathematics
- (A) Essential Mathematics

#### **Humanities and Business**

- (G) Geography
- (G) Legal Studies
- (G) Modern History
- (A) Social & Community Studies
- (A) Tourism
- (G) Accounting
- (G) Economics

#### Health and Physical Education

(G) Physical Education

#### Science

- (G) Biology
- (G) Chemistry
- (G) Physics
- (G) Psychology

#### **Design Technology**

- (G) Design
- (A) Fashion
- (A) Furnishing Skills
- (G) Digital Solutions

#### The Arts

- (G) Drama
- (A) Drama in Practice
- (G) Music
- (G) Music Extension (Year 12 Only)
- (G) Visual Art
- (A) Visual Art in Practice

# **Senior General Subjects**

General Subjects	QCE points for completed course (4 semesters)	General Subjects	QCE points for completed course (4 semesters)

Certificate II & Certificate III Recreation (dual qualification)	8	Certificate II Engineering Pathways	4
Certificate II Kitchen Operations	4	Certificate III in Information and Technology	8
*Certificate 1 Construction	3	Certificate III Business	8

<sup>\*</sup>Certificate I in Construction will be completed in Year 11. Students will then enrol in the QCAA Applied course, Building and Construction Skills. At the completion of two units, students will achieve an additional 3 QCE points.

### **Levy Information**

The following Elective subjects will incur a levy for consumables, excursions and camps.

Design Fashion Furnishing Skills Economics Geography

Legal Studies Modern History

Social and Community Studies

Tourism French

Japanese

Biology Drama

Drama In Practice

Music

Music Extension

Visual Art

Visual Art in Practice

Certificate I in Construction & Building and Design

# **Applied Subject**

#### Religion and Ethics Syllabus

#### **Course Objectives**

By the conclusion of the course of study, students will:

- recognise and describe concepts, ideas and terminology about religion, beliefs and ethics
- identify and explain the ways religion, beliefs and ethics contribute to the personal, relational and spiritual perspectives of life and society
- · explain viewpoints and practices related to religion, beliefs and ethics
- organise information and material related to religion, beliefs and ethics
- analyse perspectives, viewpoints and practices related to religion, beliefs and ethics
- · apply concepts and ideas to make decisions about inquiries
- use language conventions and features to communicate ideas and information, according to purposes
- plan and undertake inquiries about religion, beliefs and ethics
- communicate the outcomes of inquiries to suit audiences
- · appraise inquiry processes and the outcomes of inquiries

#### **Course Structure**

Core	Electives
Who am I?	Ethics and morality
The personal perspective	Heroes and role models Indigenous Australian spiritualities Meaning and
Who are we?	purpose
The relational perspective	Religion and contemporary culture Religions of the world
Is there more than this?	Religious citizenship
The spiritual perspective	Social justice

Project	Investigation	Extended Response	Examination
A response to a single task, situation and/or scenario. A project must have two parts with different audiences and modes.	A response that includes locating and using information beyond students' own knowledge and the data they have been given.	A technique that assesses the interpretation, analysis / examination and/or evaluation of ideas and information in provided stimulus materials.	A response that answers a number of provided questions, scenarios and/or problems.

### **Prerequisite**

There are no prerequisites for this subject.

# **General Subject**

Study of Religion Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · describe the characteristics of religion and religious traditions
- demonstrate an understanding of religious traditions
- differentiate between religious traditions
- analyse perspectives about religious expressions within traditions
- · consider and organise information about religion
- evaluate and draw conclusions about the significance of religion for individuals and its influence on people, society and culture
- · create responses that communicate meaning to suit purpose

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Sacred texts and religious writings.  Sacred texts Abrahamic Traditions	Religion and ritual.  Lifecycle rituals  Calendrical rituals	Religious ethics.  Social ethics  Ethical relationships	<ul><li>Religion, rights and the nation-state.</li><li>Religion and the nation state</li><li>Religion and Human Rights</li></ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination - extended response	25%	Summative internal assessment 3 (IA3): Investigation – inquiry response	25%
Summative internal assessment 2 (IA2): Investigation – inquiry response	25%	Summative external assessment (EA): Examination — short response	25%

#### **Prerequisite**

In order to succeed in this subject, students should have achieved at least a C in English.

# **General Subject**

**English Syllabus** 

#### **Course Objectives**

By the conclusion of the course of study, students will:

- use patterns and conventions of genres to achieve particular purposes in cultural contexts and social situations
- establish and maintain roles of the writer/speaker/signer/designer and relationships with audiences
- create and analyse perspectives and representations of concepts, identities, times and places
- make use of and analyse the ways cultural assumptions, attitudes, values and beliefs underpin texts and invite audiences to take up positions
- use aesthetic features and stylistic devices to achieve purposes and analyse their effects in texts
- select and synthesise subject matter to support perspectives
- organise and sequence subject matter to achieve particular purposes
- use cohesive devices to emphasise ideas and connect parts of texts
- · make language choices for particular purposes and contexts
- use grammar and language structures for particular purposes
- use mode-appropriate features to achieve particular purposes

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Perspectives and texts  Examining and creating perspectives in texts  Responding to a variety of non-literary and literary texts  Creating responses for public audiences and persuasive texts	exts and culture  Examining and shaping representations of culture in texts  Responding to literary and non-literary texts, including a focus on Australian texts  Creating imaginative and analytical texts	<ul> <li>Textual connections</li> <li>Exploring connections between texts</li> <li>Examining different perspectives of the same issue in texts and shaping own perspectives</li> <li>Creating responses for public audiences and persuasive texts</li> </ul>	Close study of literary texts  Engaging with literary texts from diverse times and places  Responding to literary texts creatively and critically  Creating imaginative and analytical texts

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3			Unit 4		
Summative internal assessment 1 (IA1): Extended response — written response for a public audience	•	25%	Summative internal assessment 3 (IA3): Extended response — imaginative written response	•	25%
Summative internal assessment 2 (IA2): Extended response — persuasive spoken response	•	25%	Summative external assessment (EA): Examination — analytical written response	•	25%

### **Prerequisite**

In order to succeed in this subject, students should have achieved a B in English at Year 10.

# **General Subject**

#### Literature Syllabus

#### **Course Objectives**

By the conclusion of the course of study, students will:

- use patterns and conventions of genres to achieve particular purposes in cultural contexts and social situations
- establish and maintain the roles of writer/speaker/signer/designer and relationships with audiences
- create and analyse perspectives and representations of concepts, identities, times and places
- make use of and analyse the ways cultural assumptions, attitudes, values and beliefs underpin texts and invite audiences to take up positions
- use aesthetic features and stylistic devices to achieve purposes and analyse their effects in texts
- select and synthesise subject matter to support perspectives
- organise and sequence subject matter to achieve particular purposes
- use cohesive devices to emphasise ideas and connect parts of texts
- · make language choices for particular purposes and contexts
- use grammar and language structures for particular purposes
- use mode-appropriate features to achieve particular purposes

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Introduction to literary studies  Ways literary texts are received and responded to  How textual choices affect readers  Creating analytical and imaginative texts	Intertextuality  Ways literary texts connect with each other — genre, concepts and contexts  Ways literary texts connect with each other — style and structure	Relationship     between language,     culture and identity     in literary texts     Power of language     to represent ideas,     events and people     Creating analytical     and imaginative     texts	Independent explorations  Dynamic nature of literary interpretation Close examination of style, structure and subject matter Creating analytical and imaginative texts

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — analytical written response	25%	Summative internal assessment 3 (IA3): Extended response — imaginative written response	25%
Summative internal assessment 2 (IA2): Extended response — persuasive spoken response	25%	Summative external assessment (EA): Examination — analytical written response	25%

## **Prerequisite**

In order to succeed in this subject, students should have achieved a B in English at Year 10.

# **Applied Subject**

#### **Essential English Syllabus**

#### **Course Objectives**

By the conclusion of the course of study, students will:

- use patterns and conventions of genres to suit particular purposes and audiences
- · use appropriate roles and relationships with audiences
- · construct and explain representations of identities, places, events and concepts
- make use of and explain the ways cultural assumptions, attitudes, values and beliefs underpin texts and influence meaning
- explain how language features and text structures shape meaning and invite particular responses
- select and use subject matter to support perspectives
- sequence subject matter and use mode-appropriate cohesive devices to construct coherent texts
- make mode-appropriate language choices according to register informed by purpose, audience and context
- use language features to achieve particular purposes across modes.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
<ul> <li>Responding to a variety of texts used in and developed for a work context</li> <li>Creating multimodal and written texts</li> </ul>	<ul> <li>Texts and human experiences</li> <li>Responding to reflective and nonfiction texts that explore human experiences</li> <li>Creating spoken and written texts</li> </ul>	Language that influences  Creating and shaping perspectives on community, local and global issues in texts  Responding to texts that seek to influence audiences	Representations and popular culture texts  Responding to popular culture texts  Creating representations of Australian identifies, places, events and concepts

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context.

In Units 3 and 4 students complete four summative assessments. Schools develop three summative internal assessments and the common internal assessment (CIA) is developed by the QCAA.

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Extended response — spoken/signed response	25%	Summative internal assessment 3 (IA3): Extended response — Multimodal response	25%
Summative internal assessment 2 (IA2): Common internal assessment (CIA)	25%	Summative external assessment (EA): Extended response — Written response	25%

#### **Prerequisite**

There are no prerequisites for this subject.

# **General Mathematics**

# **General Subject**

#### **General Mathematics Syllabus**

#### **Course Objectives**

By the conclusion of the course of study, students will:

- select, recall and use facts, rules, definitions and procedures drawn from Number and algebra, Measurement and geometry, Statistics and Networks and matrices
- comprehend mathematical concepts and techniques drawn from Number and algebra, Measurement and geometry, Statistics and Networks and matrices
- communicate using mathematical, statistical and everyday language and conventions
- evaluate the reasonableness of solutions
- justify procedures and decisions by explaining mathematical reasoning
- solve problems by applying mathematical concepts and techniques drawn from Number and algebra, Measurement and geometry, Statistics and Networks and matrices.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Money, measurement and relations  Consumer arithmetic	Applied trigonometry, algebra, matrices and univariate data.	Bivariate data, sequences and change and Earth geometry.	<ul> <li>Investing and networking.</li> <li>Loans, investments and annuities</li> </ul>
<ul> <li>Shape and measurement</li> <li>Linear equations and their graphs</li> </ul>	<ul> <li>Applications of trigonometry</li> <li>Algebra and matrices</li> </ul>	<ul><li>Bivariate data analysis</li><li>Time series analysis</li><li>Growth and decay in sequences</li></ul>	<ul> <li>Graphs and networks</li> <li>Networks and decision mathematics</li> </ul>
	<ul> <li>Univariate data analysis</li> </ul>	<ul> <li>Earth geometry and time zones</li> </ul>	

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Problem-solving and modelling task	20%	Summative internal assessment 3 (IA3): Examination	15%
Summative internal assessment 2 (IA2): Examination	15%		
Summative external assessment (EA): 50% Examination			

#### **Prerequisite**

In order to succeed in this subject, students should have achieved a C achievement in Year 10 Mathematics.

### **Mathematical Methods**

### **General Subject**

Mathematical Methods Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- select, recall and use facts, rules, definitions and procedures drawn from 'Algebra, Functions, relations and their graphs, Calculus and Statistics
- comprehend mathematical concepts and techniques drawn from Algebra, Functions, relations and their graphs, Calculus and Statistics
- communicate using mathematical, statistical and everyday language and conventions
- evaluate the reasonableness of solutions
- justify procedures and decisions by explaining mathematical reasoning
- solve problems by applying mathematical concepts and techniques drawn from Algebra, Functions, relations and their graphs, Calculus and Statistics.

### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
<ul> <li>Money, measurement and relations</li> <li>Arithmetic and geometric sequences and series 1</li> <li>Functions and graphs</li> <li>Counting and probability</li> <li>Exponential functions 1</li> <li>Arithmetic and geometric sequences</li> </ul>	Calculus and further functions  Exponential functions 2  The logarithmic function 1  Trigonometric functions 1  Introduction to differential calculus  Further differentiation and applications 1  Discrete random variables 1	<ul> <li>Further calculus</li> <li>The logarithmic function 2</li> <li>Further differentiation and applications 2</li> <li>Integrals</li> </ul>	<ul> <li>Further functions and statistics</li> <li>Further differentiation and applications 3</li> <li>Trigonometric functions 2</li> <li>Discrete random variables 2</li> <li>Continuous random variables and the normal distribution</li> <li>Interval estimates for proportions</li> </ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Problem-solving and modelling task	20%	Summative internal assessment 3 (IA3): Examination	15%
Summative internal assessment 2 (IA2): Examination			
Summative external assessment (EA): 50% The External Examination is split into 2 x 25% (technology free and technology active)			

### **Prerequisite**

In order to succeed in this subject, students should have achieved a minimum of a B achievement in Year 10 Extension Mathematics or teacher recommendation.

# **Specialist Mathematics**

### **General Subject**

Specialist Mathematics Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- select, recall and use facts, rules, definitions and procedures drawn from Vectors and matrices, Real and complex numbers, Trigonometry, Statistics and Calculus
- comprehend mathematical concepts and techniques drawn from Vectors and matrices, Real and complex numbers, Trigonometry, Statistics and Calculus
- communicate using mathematical, statistical and everyday language and conventions
- evaluate the reasonableness of solutions
- justify procedures and decisions, and prove propositions by explaining mathematical reasoning
- solve problems by applying mathematical concepts and techniques drawn from Vectors and matrices, Real and complex numbers, Trigonometry, Statistics and Calculus.

#### **Course Structure**

Specialist Mathematics is to be undertaken in conjunction with, or on completion of, Mathematical Methods.

Unit 1	Unit 2	Unit 3	Unit 4
Combinatorics, vectors and proof  Combinatorics  Vectors in the plane Introduction to proof	Complex numbers, trigonometry, functions and matrices  Complex  numbers 1  Trigonometry and functions  Matrices	Mathematical induction, and further vectors, matrices and complex numbers  Proof by mathematical induction Vectors and matrices Complex numbers 2	<ul> <li>Further statistical and calculus inference</li> <li>Integration and applications of integration</li> <li>Rates of change and differential equations</li> <li>Statistical inference</li> </ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Problem-solving and modelling task	20%	Summative internal assessment 3 (IA3): Examination	15%
Summative internal assessment 2 (IA2): Examination 15%			
Summative external assessment (EA): 50% The External Examination is split into 2 x 25% (technology free and technology active)			

### **Prerequisite**

This subject requires a high degree of abstract thinking. In order to succeed within the subject students should have achieved a minimum of B achievement in Year 10 Extension Mathematics, or by teacher recommendation.

# **Essential Mathematics**

### **Applied Subject**

**Essential Mathematics Syllabus** 

### **Objectives**

By the conclusion of the course of study, students will:

- select, recall and use facts, rules, definitions and procedures drawn from Number, Data, Location and time,
   Measurement and Finance
- comprehend mathematical concepts and techniques drawn from Number, Data, Location and time, Measurement and Finance
- communicate using mathematical, statistical and everyday language and conventions
- evaluate the reasonableness of solutions
- · justify procedures and decisions by explaining mathematical reasoning
- solve problems by applying mathematical concepts and techniques drawn from Number, Data, Location and time, Measurement and Finance.

#### **Structure**

	Unit 1	Unit 2	Unit 3	Unit 4
•	Number, data and graphs Fundamental topic: Calculations Number Representing data Graphs	<ul> <li>Money, travel and data</li> <li>Fundamental topic: Calculations</li> <li>Managing money</li> <li>Time and motion</li> <li>Data collection</li> </ul>	<ul> <li>Measurement, scales and data</li> <li>Fundamental topic: Calculations</li> <li>Measurement</li> <li>Scales, plans and models</li> <li>Summarising and comparing data</li> </ul>	<ul> <li>Graphs, chance and loans</li> <li>Fundamental topic: Calculations</li> <li>Bivariate graphs</li> <li>Probability and relative frequencies</li> <li>Loans and compound interest</li> </ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. Schools develop three summative internal assessments and the common internal assessment (CIA) is developed by the QCAA.

#### **Summative Assessments**

Unit 3	Unit 4
Summative internal assessment 1 (IA1): Problem- solving and modelling task	Summative internal assessment 3 (IA3): Problem- solving and modelling task
Summative internal assessment 2 (IA2): Common internal assessment (CIA)	Summative external assessment (EA): Examination

### **Prerequisite**

There are no prerequisites for this subject.

# **Elective: Design Technology: Design**

### **General Subject**

#### Design Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · describe design problems and design criteria
- · represent ideas, design concepts and design information using drawing and low-fidelity prototyping
- analyse needs, wants and opportunities using data
- · devise ideas in response to design problems
- synthesise ideas and design information to propose design concepts
- evaluate ideas and design concepts to make refinements
- make decisions about and use mode-appropriate features, language and conventions for particular purposes and contexts.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Design in practice     Fundamental topic:     Calculations     Number     Representing data     Graphs	Commercial design  Explore – client needs and wants  Develop – collaborative design	Human-center design  Designing with empathy	<ul> <li>Sustainable design</li> <li>Explore – sustainable design opportunities</li> <li>Develop – redesign</li> </ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3	Unit 4
Summative internal assessment 1 (IA1): Examination — design challenge	Summative internal assessment 3 (IA3): Project
Summative internal assessment 2 (IA2): Project	Summative external assessment (EA): Examination — design challenge

#### **Prerequisite**

In order to succeed in this subject, students should have achieved a B English.

# **Elective: Design Technology: Fashion**

# **Applied Subject**

### Fashion Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · identify and interpret fashion fundamentals
- · explain design briefs
- · demonstrate elements and principles of fashion design and technical skills in fashion contexts
- analyse fashion fundamentals
- apply fashion design processes
- apply technical skills and design ideas related to fashion contexts
- use language conventions and features to achieve particular purposes
- generate, modify and manage plans and processes
- synthesise ideas and technical skills to create design solutions
- evaluate design ideas and products
- create communications that convey meaning to audiences.

#### **Course Structure**

Core	Electives
Fashion culture	Fashion contexts
Fashion technologies Fashion design	<ul> <li>Unit 1: Fashion in History</li> <li>Unit 2: Fashion Designers</li> <li>Unit 3: Theatrical Design</li> <li>Unit 4: Sustainable Clothing</li> </ul>

#### **Assessment**

Project	Extended Response
A response to a single task, situation and/or scenario.	A technique that assesses the interpretation, analysis/examination and/or evaluation of ideas and information in provided stimulus materials.

### **Prerequisite**

There are no prerequisites for this subject, however, **10HED** is preferable.

# **Elective: Design Technology: Furnishing Skills**

### **Applied Subject**

#### Furnishing Skills Syllabus

### **Course Objectives**

By the conclusion of the course of study, students should:

- describe industry practices in manufacturing tasks
- demonstrate fundamental production skills
- · interpret drawings and technical information
- · analyse manufacturing tasks to organise materials and resources
- select and apply production skills and procedures in manufacturing tasks
- use visual representations and language conventions and features to communicate particular purposes
- plan and adapt production processes
- create products from specifications
- evaluate industry practices, production processes and products and make recommendations.

#### **Course Structure**

Core	Electives
Industry practices Production process	<ul> <li>Furniture-making plus at least two other electives:</li> <li>Cabinetmaking</li> <li>Furniture finishing</li> <li>Glazing and framing</li> <li>Upholstery</li> </ul>

#### **Assessment**

For Furnishing Skills, assessment from Units 3 and 4 is used to determine the student's exit result, and consists of four instruments, including:

- at least two projects
- at least one practical demonstration (separate to the assessable component of a project).

Project	Practical Demonstration	Examination
A response to a single task, situation and/or scenario.	A task that assesses the practical application of a specific set of teacher-identified production skills and procedures.	of provided questions, scenarios

### **Prerequisite**

In order to succeed in this subject, students should have achieved a C in Design Technology Wood in Years 9 or 10. Students are to adhere to Workplace Health and Safety guidelines and practices while undertaking practical work.

# **Elective: Humanities and Business: Accounting**

### **General Subject**

#### Accounting Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- comprehend accounting concepts, principles and processes
- · apply accounting principles and processes
- analyse and interpret financial data and information
- evaluate accounting practices to make decisions and propose recommendations
- synthesise and solve accounting problems
- create responses that communicate meaning to suit purpose and audience.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Real world accounting:  Accounting for a service business — cash, accounts receivable, accounts payable and no GST  End-of-month reporting for a service business	Management effectiveness  • Accounting for a trading GST business  • End-of-year reporting for a trading GST business	<ul> <li>Monitoring a business</li> <li>Managing resources for a trading GST business —non-current assets</li> <li>Fully classified financial statement reporting for a trading GST business</li> </ul>	Accounting — the big picture  Cash management  Complete accounting process for a trading GST business  Performance analysis of a listed public company

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — combination response	25%	Summative internal assessment 3 (IA3): Project — cash management	
Summative internal assessment 2 (IA2): Examination — short response	25%	Summative external assessment (EA): Examination — short response	25%

### **Prerequisite**

To succeed in this subject, students should have achieved a C in English and Mathematics. It is not necessary to have studied Business and Economics during Year 10.

# **Elective: Humanities and Business: Digital Solutions**

### **General Subject**

#### Digital Solutions Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- recognise and describe elements, components, principles and processes
- · symbolise and explain information, ideas and interrelationships
- analyse problems and information
- · determine solution requirements and criteria
- synthesise information and ideas to determine possible digital solutions
- generate components of the digital solution
- evaluate impacts, components and solutions against criteria to make refinements and justified recommendations
- make decisions about and use mode-appropriate features, language and conventions for particular purposes and contexts.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
<ul> <li>Creating with code</li> <li>Understanding digital problems</li> <li>User experiences and interfaces</li> <li>Algorithms and programming techniques</li> <li>Programmed solutions</li> </ul>	<ul> <li>Application and data solutions</li> <li>Data-driven problems and solution requirements</li> <li>Data and programming techniques</li> <li>Prototype data solutions</li> </ul>	Digital innovation Interactions between users, data and digital systems Real-world problems and solution requirements Innovative digital solutions	Digital impacts  Digital methods for exchanging data  Complex digital data exchange problems and solution requirements  Prototype digital data exchanges

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Investigation — technical proposal	20%	Summative internal assessment 3 (IA3): Project — folio	
Summative internal assessment 2 (IA2): Project — digital solution	30%	Summative external assessment (EA): Examination	25%

### **Prerequisite**

To succeed in this subject, students should have achieved a C in English and Mathematics.

# **Elective: Humanities and Business: Economics**

### **General Subject**

#### **Economics Syllabus**

### **Objectives**

By the conclusion of the course of study, students will:

- comprehend economic concepts, principles and models
- select data and economic information from sources
- analyse economic issues
- · evaluate economic outcomes
- · create responses that communicate economic meaning.

#### **Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Markets and models	Modified markets	International economics	Contemporary
<ul> <li>The basic economic problem</li> <li>Economic flows</li> <li>Market forces</li> </ul>	<ul> <li>Markets and efficiency</li> <li>Case options of market measures and strategies</li> </ul>	<ul><li>The global economy</li><li>International economic issues</li></ul>	<ul> <li>macroeconomics</li> <li>Macroeconomic objects and theory</li> <li>Economic management</li> </ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3  Summative internal assessment 1 (IA1): Examination — combination response	25%	Unit 4  Summative internal assessment 3 (IA3):  Examination — extended response to stimulus	25%
Summative internal assessment 2 (IA2): Investigation — research report	25%	Summative external assessment (EA): Examination — combination response	25%

### **Prerequisite**

In order to succeed in this subject, students should have achieved a C in English.

# **Elective: Humanities and Business: Geography**

### **General Subject**

#### Geography Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- explain geographical processes
- · comprehend geographic patterns
- analyse geographical data and information
- · apply geographical understanding
- synthesise information from the analysis to propose action
- · communicate geographical understanding.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Responding to risk and vulnerability in hazard zones  Natural hazard zones  Ecological hazard zones	Planning sustainable places  Responding to challenges facing a place in Australia  Managing the challenges facing a megacity	Responding to land cover transformations  Land cover transformations and climate change  Responding to local land cover transformations	Managing population change  Population challenges in Australia Global population change

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — combination response	25%	Summative internal assessment 3 (IA3): Investigation — data report	25%
Summative internal assessment 2 (IA2): Investigation — field report	25%	Summative external assessment (EA): Examination — combination response	25%

### **Prerequisite**

Students choosing Geography are expected to have achieved at least a sound level of achievement in both English and Humanities in Year 10.

# **Elective: Humanities and Business: Legal Studies**

### **General Subject**

Legal Studies Syllabus

### **Objectives**

By the conclusion of the course of study, students will:

- · comprehend legal concepts, principles and processes
- select legal information from sources
- analyse legal issues
- · evaluate legal situations
- create responses that communicate meaning.

#### **Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Beyond reasonable doubt  Legal foundations Criminal investigation process Criminal trial process Punishment and sentencing	<ul> <li>Balance of probabilities</li> <li>Civil law foundations</li> <li>Contractual obligations</li> <li>Negligence and the duty of care</li> </ul>	Law, governance and change  Governance in Australia  Law reform within a dynamic society	Human rights in legal contexts  Human rights  Human rights  Human rights in Australian contexts

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — combination response	25%	Summative internal assessment 3 (IA3): Investigation — argumentative essay	25%
Summative internal assessment 2 (IA2): Investigation — inquiry report	25%	Summative external assessment (EA): Examination — combination response	25%

#### **Prerequisite**

Students choosing Legal Studies are expected to have achieved at least B achievement in both English and Humanities in Year 10.

# **Elective: Humanities and Business: Modern History**

### **General Subject**

Modern History Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · comprehend terms, concepts and issues
- devise historical questions and conduct research
- analyse evidence from historical sources to show understanding
- synthesise evidence from historical sources to form a historical argument
- · evaluate evidence from historical sources to make judgments
- create responses that communicate meaning to suit purpose.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Ideas in the modern world  • Australian Frontier Wars, 1788–1930s  • American Revolution, 1763– 1783	Movements in the modern world  Women's movement since 1893  African-American civil rights movement, 1954-1968	National experiences in the modern world  Germany, 1914– 1945  Israel, 1948–1993	International experiences in the modern world  • Australian engagement with Asia since 1945  • Cold War, 1945- 1991

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — essay in response to historical sources	25%	Summative internal assessment 3 (IA3): Investigation — historical essay based on research	25%
Summative internal assessment 2 (IA2): Independent source investigation	25%	Summative external assessment (EA): Examination — short responses to historical sources	25%

### **Prerequisite**

Students choosing Modern History are expected to have achieved at least a B level of achievement in both English and Humanities in Year 10.

# **Elective: Humanities and Business: Social and Community Studies**

### **Applied Subject**

Social and Community Studies

### **Course Objectives**

By the conclusion of the course of study, students will:

- recognise and describe concepts and ideas related to the development of personal, interpersonal and citizenship skills
- recognise and explain the ways life skills relate to social contexts
- · explain issues and viewpoints related to social investigations
- · organise information and material related to social contexts and issues
- analyse and compare viewpoints about social contexts and issues
- apply concepts and ideas to make decisions about social investigations
- use language conventions and features to communicate ideas and information, according to purposes
- plan and undertake social investigations
- communicate the outcomes of social investigations, to suit audiences
- appraise inquiry processes and the outcomes of social investigations.

#### **Course Structure**

The Tourism course is designed around interrelated core topics and electives.

Core	Electives
Personal skills Growing and developing as an individual	<ul><li>Australia's place in the world</li><li>Health: food and nutrition</li><li>Health: recreation and leisure</li></ul>
Interpersonal skills	<ul> <li>Into relationships</li> </ul>
Living with and relating to other people	Legally, it could be you
Citizenship skills	Money management
Receiving from and contributing to	Today's society
community	The world of work

#### **Summative Assessments**

Project	Investigation	Extended Response	Examination
A response to a single task, situation and/or scenario. A project must have two parts with different audiences and modes.	A response that includes locating and using information beyond students' own knowledge and the data they have been given.	A technique that assesses the interpretation, analysis/examination and/or evaluation of ideas and information in provided stimulus materials.	A response that answers a number of provided questions, scenarios and/or problems.

### **Prerequisite**

There are no prerequisites for this subject.

# **Elective: Humanities and Business: Tourism**

### **Applied Subject**

#### Tourism Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- recall terminology associated with tourism and the tourism industry
- · describe and explain tourism concepts and information
- identify and explain tourism issues or opportunities
- · analyse tourism issues and opportunities
- · apply tourism concepts and information from a local, national and global perspective
- communicate meaning and information using language conventions and features relevant to tourism contexts
- generate plans based on consumer and industry needs
- · evaluate concepts and information within tourism and the tourism industry
- draw conclusions and make recommendations.

#### **Course Structure**

The Tourism course is designed around interrelated core topics and electives.

Core	Electives
Tourism as an industry The travel experience Sustainable tourism	<ul> <li>Technology and tourism</li> <li>Forms of tourism</li> <li>Tourist destinations and attractions</li> <li>Tourism marketing</li> <li>Types of tourism</li> <li>Tourism client groups</li> </ul>

#### **Assessment**

For Tourism, assessment from Units 3 and 4 is used to determine the student's exit result, and consists of four instruments from at least three different assessment techniques, including: one project

one examination

no more than two assessments from each technique.

#### **Summative Assessments**

Project	Investigation	Extended Response	Examination
A response to a single task, situation and/or scenario.	locating and using	evaluation of ideas and	a number of provided questions, scenarios and

### **Prerequisite**

There are no prerequisites for this subject.

# **Elective: Health and Physical Education: Physical Education**

### **General Subject**

Physical Education Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · recognise and explain concepts and principles about movement
- · demonstrate specialised movement sequences and movement strategies
- apply concepts to specialised movement sequences and movement strategies
- analyse and synthesise data to devise strategies about movement
- evaluate strategies about and in movement
- justify strategies about and in movement
- make decisions about and use language, conventions and mode-appropriate features for particular purposes and contexts.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
<ul> <li>Motor learning, functional anatomy, biomechanics and physical activity</li> <li>Topic 1 : Motor learning integrated with a selected physical activity</li> <li>Topic 2 : Functional anatomy and biomechanics integrated with a selected physical activity</li> </ul>	<ul> <li>Sport psychology, equity and physical activity</li> <li>Topic 1 : Sport psychology integrated with a selected physical activity</li> <li>Topic 2 : Equity - barriers and enablers</li> </ul>	Tactical awareness, ethics and integrity and physical activity  Topic 1: Tactical awareness integrated with one selected 'Invasion' or 'Net and court' physical activity  Topic 2: Ethics and integrity	<ul> <li>Energy, fitness and training and physical activity</li> <li>Topic 1: Energy, fitness and training integrated with one selected</li> <li>'Invasion', 'Net and court' or 'Performance' physical activity</li> </ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Project — folio	25%	Summative internal assessment 3 (IA3): Project — folio	30%
Summative internal assessment 2 (IA2): Investigation — report	20%	Summative external assessment (EA): Examination — combination response	25%

### **Prerequisite**

Students should have achieved a C in English and a C standard in Year 10 HPE is also recommended. Students are required to make a commitment to all practical components listed above.

# **Elective: English and Languages: French**

### **General Subject**

#### French Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- comprehend French to understand information, ideas, opinions and experiences
- identify tone, purpose, context and audience to infer meaning, values and attitudes
- analyse and evaluate information and ideas to draw conclusions and justify opinions, ideas and perspectives
- apply knowledge of French language elements, structures and textual conventions to convey meaning appropriate to context, purpose, audience and cultural conventions
- structure, sequence and synthesise information to justify opinions, ideas and perspectives
- use strategies to maintain communication and exchange meaning in French.

#### **Course Overview**

Unit 1	Unit 2	Unit 3	Unit 4
Ma vie My World  Family/carers and friends  Lifestyle and leisure  Education	L'exploration du monde Exploring our world  Travel  Technology and media  The contribution of French culture to the world	Notre societe Our society  Roles and relationships Socialising and connecting with my peers Groups in society	Mon avenir My future  Finishing secondary school, plans and reflections Responsibilities and moving on

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — short response	15%	Summative internal assessment 3 (IA3): Extended response	30%
Summative internal assessment 2 (IA2): Examination — combination response	30%	Summative external assessment (EA): Examination — combination response	25%

#### **Prerequisite**

Senior French is a continuation of French language study across Years 7 – 10. Students should have achieved a C standard in Year 10 French.

# **Elective: English and Languages: Japanese**

### **General Subject**

#### Japanese Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- comprehend Japanese to understand information, ideas, opinions and experiences
- identify tone, purpose, context and audience to infer meaning, values and attitudes
- · analyse and evaluate information and ideas to draw conclusions and justify opinions, ideas and perspectives
- apply knowledge of Japanese language elements, structures and textual conventions to convey meaning appropriate to context, purpose, audience and cultural conventions
- structure, sequence and synthesise information to justify opinions, ideas and perspectives
- use strategies to maintain communication and exchange meaning in Japanese.

#### **Course Overview**

Unit 1	Unit 2	Unit 3	Unit 4
私のくらし My World  • Family/carers and friends  • Lifestyle and leisure  • Education	私達のまわり Exploring our world  Travel Technology and media The contribution of Japanese culture to the world	私達の社会 Our society  Roles and relationships Socialising and connecting with my peers Groups in society	私の将来 My future  Finishing secondary school, plans and reflections Responsibilities and moving on

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Examination — short response	15%	Summative internal assessment 3 (IA3): Extended response	30%
Summative internal assessment 2 (IA2): Examination — combination response	30%	Summative external assessment (EA): Examination — combination response	25%

#### **Prerequisite**

Senior Japanese is a continuation of Japanese language study across Years 7 – 10. Students should have achieved a C standard in Year 10 Japanese.

# **Elective: Science: Biology**

### **General Subject**

Biology Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- describe and explain scientific concepts, theories, models and systems and their limitations
- apply understanding of scientific concepts, theories, models and systems within their limitations
- analyse evidence
- interpret evidence
- investigate phenomena
- · evaluate processes, claims and conclusions
- communicate understandings, findings, arguments and conclusions.

#### **Course Overview**

Unit 1	Unit 2	Unit 3	Unit 4
Cells and multicellular organisms  Cells as the basis of	Maintaining the internal environment	interconnectedness of life	<ul><li>Heredity and continuity of life</li><li>DNA, genes and the</li></ul>
<ul><li>life</li><li>Multicellular organisms</li></ul>	<ul><li>Homeostasis</li><li>Infectious diseases</li></ul>	<ul><li>Describing biodiversity</li><li>Ecosystem dynamics</li></ul>	<ul><li>continuity of life</li><li>Continuity of life on Earth</li></ul>

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E). Compulsory field work component required.

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Data test	10%	Summative internal assessment 3 (IA3): Research investigation	25%
Summative internal assessment 2 (IA2): Student experiment	20%		
Summative external assessment (EA): 50% Examination			

### **Prerequisite**

In order to succeed in this subject, students should have achieved a B standard in English and Year 10 Science 1 or 2.

# **Elective: Science: Chemistry**

### **General Subject**

#### **Chemistry Syllabus**

### **Course Objectives**

By the conclusion of the course of study, students will:

- describe and explain scientific concepts, theories, models and systems and their limitations
- apply understanding of scientific concepts, theories, models and systems within their limitations
- analyse evidence
- interpret evidence
- investigate phenomena
- evaluate processes, claims and conclusions
- · communicate understandings, findings, arguments and conclusions.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
<ul> <li>Chemical fundamentals — structure, properties and reactions</li> <li>Properties and structure of atoms</li> <li>Properties and structure of materials</li> <li>Chemical reactions — reactants, products and energy change</li> </ul>	Molecular interactions and reactions  Intermolecular forces and gases  Aqueous solutions and acidity  Rates of chemical reactions	<ul> <li>Equilibrium, acids and redox reactions</li> <li>Chemical equilibrium systems</li> <li>Oxidation and reduction</li> </ul>	Structure, synthesis and design  Properties and structure of organic materials  Chemical synthesis and design

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Data test	10%	Summative internal assessment 3 (IA3): Research investigation	20%
Summative internal assessment 2 (IA2): Student experiment	20%		
Summative external assessment (EA): 50% Examination			

#### **Prerequisite**

In order to succeed in this subject, students should have achieved a B standard in Year 10 Science 1.

# **Elective: Science: Physics**

### **General Subject**

#### Physics Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- describe and explain scientific concepts, theories, models and systems and their limitations
- · apply understanding of scientific concepts, theories, models and systems within their limitations
- analyse evidence
- interpret evidence
- investigate phenomena
- evaluate processes, claims and conclusions
- communicate understandings, findings, arguments and conclusions.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Thermal, nuclear and electrical physics  Heating processes  Ionising radiation and nuclear reactions  Electrical circuits	<ul><li>Linear motion and waves</li><li>Linear motion and force</li><li>Waves</li></ul>	Gravity and electromagnetism  Gravity and motion  Electromagnetism	Revolutions in modern physics  Special relativity  Quantum theory  The Standard Model

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Data test	10%	Summative internal assessment 3 (IA3): Research investigation	20%
Summative internal assessment 2 (IA2): Student experiment	20%		
Summative external assessment (EA): 50% Examination			

### **Prerequisite**

In order to succeed in this subject, students should have achieved a B standard in English, Mathematics and Science 1.

# **Elective: Science: Psychology**

# **General Subject**

### Psychology Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · describe and explain scientific concepts, theories, models and systems and their limitations
- apply understanding of scientific concepts, theories, models and systems within their limitations
- analyse evidence
- interpret evidence
- investigate phenomena
- · evaluate processes, claims and conclusions
- communicates understandings, findings, arguments and conclusions.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Individual Development	Individual Behaviour	Individual thinking	The influence of others
-Psychological Science A	-Psychological science	-Localisation of	-Social psychology
-The role of the brain	В	function in the brain	-Interpersonal processes
-Cognitive Development	-Intelligence	-Visual Perception	-Attitudes
-Human Consciousness and	-Diagnosis	-Memory	-Cross-cultural
sleep	-Psychological	-Learning	psychology
	disoreders and		
	treatment		
	-emotion and		
	motivation		

#### **Assessment**

In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

Unit 3		Unit 4	
Summative internal assessment 1 (IA1):  • Data test	10%	Summative internal assessment 3 (IA3):  Research investigation	20%
Summative internal assessment 2 (IA2):  • Student experiment	20%		
Summative external assessment (EA): 50%  • Examination			

### **Prerequisite**

In order to succeed in this subject, students should have achieved a C in Year 10 Science 1 or 2.

### **Elective: The Arts: Drama**

### **General Subject**

#### **Drama Syllabus**

### **Course Objectives**

By the conclusion of the course of study, students will:

- demonstrate an understanding of dramatic languages
- · apply literacy skills
- · apply and structure dramatic languages
- analyse how dramatic languages are used to create dramatic action and meaning
- interpret purpose, context and text to communicate dramatic meaning
- manipulate dramatic languages to create dramatic action and meaning
- evaluate and justify the use of dramatic languages to communicate dramatic meaning
- synthesise and argue a position about dramatic action and meaning.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Share How does drama promote shared understandings of the human experience?  Cultural inheritances of storytelling Oral history and emerging practices A range of linear and non-linear forms	Reflect How is drama shaped to reflect lived experience?  Realism, including Magical Realism, Australian Gothic  Associated conventions of styles and texts	Challenge How can we use drama to challenge our understanding of humanity?  Theatre of Social Comment, including Theatre of the Absurd and Epic Theatre  Associated conventions of styles and texts	Transform How can you transform dramatic practice?  Contemporary performance Associated conventions of styles and texts Inherited texts as stimulus

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Performance	20%	Summative internal assessment 3 (IA3): Project — practice-led project	35%
Summative internal assessment 2 (IA2): Project — dramatic concept	20%		
Summative external assessment (EA): 25% Examination — extended response			

### **Prerequisite**

The study of Year 9 and 10 Drama is recommended and to a C standard. A grade of B in Year 10 English is also recommended.

### **Elective: The Arts: Drama in Practice**

### **Applied Subject**

**Drama in Practice Syllabus** 

### **Course Objectives**

By the conclusion of the course of study, students will:

- identify and explain dramatic principles and practices
- interpret and explain dramatic works and dramatic meanings
- · demonstrate dramatic principles and practices
- apply dramatic principles and practices when engaging in drama activities and/or with dramatic works
- analyse the use of dramatic principles and practices to communicate meaning for a purpose
- use language conventions and features and terminology to communicate ideas and information about drama, according to purposes
- plan and modify dramatic works using dramatic principles and practices to achieve purposes
- · create dramatic works that convey meaning to audiences
- evaluate the application of dramatic principles and practices to drama activities or dramatic works.

#### **Course Structure**

Core	Electives
Dramatic Principles Dramatic Practices	<ul> <li>Acting (stage and / or screen)</li> <li>Career pathways</li> <li>Community theatre</li> <li>Contemporary theatre</li> <li>Directing</li> <li>Play building</li> <li>The theatre industry</li> <li>Theatre though the ages</li> <li>World theatre</li> <li>Technical design and production</li> <li>Scriptwriting</li> </ul>

#### **Assessment**

#### **Prerequisites**

It is recommended students should be achieving a C standard in both Year 10 Drama and English for Senior Drama.

### Elective: The Arts: Music

### **General Subject**

#### Music Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · demonstrate technical skills
- · explain music elements and concepts
- · use music elements and concepts
- analyse music
- apply compositional devices
- apply literacy skills
- · interpret music elements and concepts
- evaluate music to justify the use of music elements and concepts
- realise music ideas
- resolve music ideas.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4

composition?	performing, composing and		
	responding to music?		

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Performance	20%	Summative internal assessment 3 (IA3): Integrated project	35%
Summative internal assessment 2 (IA2): Composition	20%		
Summative External Assessment (EA): Examination – extended response 25%			

### **Prerequisite**

It is preferable students will have completed one or two units in Year 9 and Year 10 Music or participated in Instrumental / Vocal music to Grade 3 (AMEB) standard.

Students who choose to study Music, it is a distinct advantage if students are studying an instrument or voice, in conjunction with the Senior Music Course.

# Elective: The Arts: Music Extension (Studied concurrently with Year 12 Music)

### **General (Extension) Subject**

Music Extension Syllabus (Musicology)
Music Extension Syllabus (Performance)

### **Course Objectives**

By the conclusion of the course of study, students will:

- · apply literary skills
- evaluate music and ideas about music
- · examine music and ideas about music
- · express meaning, emotion or ideas about music
- · apply technical skills
- interpret music elements and concepts
- realise music ideas

#### **Course Structure**

Unit 3	Unit 4
<ul><li> Key idea 1: Initiate best practice</li><li> Key idea 2: Consolidate best practice</li></ul>	<ul><li>Emerge</li><li>Key idea 3: Independent best practice</li></ul>

### **Specialisation**

Students engage in subject matter and learning and choose to specialize in ONE of the three areas.

Composition	Performance	Musicology
-------------	-------------	------------

#### **Assessment**

In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Investigation 1	20%	Summative internal assessment 3 (IA3): Performance project	35%
Summative internal assessment 2 (IA2): Investigation 2	20%		
Summative external assessment (EA): Exa	aminatio	on — extended 25%	6

### **Prerequisite**

Students should have achieved at least a B for the chosen area of specialisation.

### **Elective: The Arts: Visual Art**

### **General Subject**

#### Visual Art Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- · implement ideas and representations
- apply literacy skills
- analyse and interpret visual language, expression and meaning in artworks and practices
- · evaluate art practices, traditions, cultures and theories
- justify viewpoints
- experiment in response to stimulus
- create meaning through the knowledge and understanding of materials, techniques, technologies and art processes
- realise responses to communicate meaning.

#### **Course Structure**

Unit 1	Unit 2	Unit 3	Unit 4
Art as lens Through inquiry learning, the following are explored:  Concept: lenses to explore the material world  Contexts: personal and contemporary  Focus: People, place, objects  Media: 2D, 3D time- based	Art as code Through inquiry learning, the following are explored:  Concept: art as a coded visual language  Contexts: formal and cultural  Focus: Codes, symbols, signs and art conventions  Media: 2D, 3D and time-based	Art as knowledge Through inquiry learning, the following are explored:  Concept: constructing knowledge as artist and audience  Contexts: contemporary, personal, cultural and/or formal  Focus: student-directed  Media: student-directed	Art as alternate Through inquiry learning, the following are explored:  Concept: evolving alternate representations and meaning  Contexts: contemporary and personal, cultural and/or formal  Focus: continued exploration of Unit 3 student-directed focus  Media: student-directed

#### **Assessment**

Schools devise assessments in Units 1 and 2 to suit their local context. In Units 3 and 4 students complete four summative assessments. The results from each of the assessments are added together to provide a subject score out of 100. Students will also receive an overall subject result (A–E).

#### **Summative Assessments**

Unit 3		Unit 4	
Summative internal assessment 1 (IA1): Investigation — inquiry phase 1	15%	Summative internal assessment 3 (IA3): Project — inquiry phase 3	35%
Summative internal assessment 2 (IA2): Project — inquiry phase 2	25%		
Summative external assessment (EA): 25%	∕₀ Exam	ination	

### **Prerequisite**

A C standard in English would be beneficial.

Students in Visual Arts will, at times, need to source their own materials for their artworks or projects.

### **Elective: The Arts: Visual Arts in Practice**

### **Applied Subject**

Visual Arts in Practice Syllabus

### **Course Objectives**

By the conclusion of the course of study, students will:

- recall terminology and explain art-making processes
- interpret information about concepts and ideas for a purpose
- demonstrate art-making processes required for visual artworks
- apply art-making processes, concepts and ideas
- analyse visual art-making processes for particular purposes
- use language conventions and features to achieve particular purposes
- generate plans and ideas and make decisions
- create communications that convey meaning to audiences
- evaluate art-making processes, concepts and ideas.

#### **Course Structure**

The Visual Arts in Practice course is designed around core and elective topics.

Core	Electives
Visual mediums, technologies, techniques Visual literacies and contexts Artwork realisation	<ul><li>2D</li><li>3D</li><li>Design</li></ul>

#### **Assessment**

For Visual Arts in Practice, assessment from Units 3 and 4 is used to determine the student's exit result, and consists of four instruments, including:

At least two projects, with at least one project arising from community connections

At least one product (composition), separate to an assessable component of a project.

Project	Product
A response to a single task, situation and/or scenario.	A technique that assesses the application of identified skills to the production of artworks.

### **Prerequisite**

A 'C' standard in English Year 10 would be beneficial.

Students in Visual Arts in Practice will, at times, need to source their own materials for their artworks or projects.

# Vocational Education and Training

These subjects are competency based and are solely aimed at Certificate qualifications. Students will be awarded a Certificate on completion or awarded a statement of attainment for completed competencies, providing St Joseph's College has been supplied with the student's Unique Student Identifier (USI). As the course is competency based there is no grade awarded during reporting or on the Senior Statement, but all competencies and the completion of the certificate are stated on the senior statement and contribute towards the QCE.

These courses are designed for students wanting Certificate qualifications and are interested in continuing with further studies or employment within these areas, either while at school or post Year 12.

Please note: VETiS funded by the VET investment budget is fee-free for students. The VET investment budget will only fund ONE employment stream qualification while the student is attending school. Students should choose carefully should they take up this option in Year 11 as a further fee-free qualification will not be available to them in Year 12.

Please refer to the Queensland Government's student fact sheet developed specifically for VETiS program: <a href="https://training.qld.gov.au/providers/funded/vetis">https://training.qld.gov.au/providers/funded/vetis</a>.

Information for all VET certificates offered at the College are found on the College's website.

Stand Alone VET Subject	ts
SENIOR VET SUBJECT	PREREQUISITE
ICT30120 Certificate III in Information Technology – 8 QCE points	No pre-requisite is required.
SIT20416 Certificate II in Kitchen Operations – 4 QCE points	Should have completed at least one semester of Junior Home Economics.
MEM20413 Certificate II in Engineering Pathways – 4 QCE points	Should have undertaken a Metalwork subject in Year 9 or 10.
CPC10120 Certificate I in Construction & Building and Construction Course.	Should have undertaken a Woodwork subject in Year 9 or 10.
The Certificate I in Construction course would be completed in Year 11. Upon completion, student would enroll in the 'Building and Construction Skills' course in Year 12. This is a QCAA Applied subject.	
In year 12, students would complete two units of this course.	
The successful completion of:	
Certificate I in Construction – 3 QCE points	
Building and Design (2 Units) – 2 QCE points	
This subject will incur a levy which may include consumables, excursion or camps.	
Business BSB30120 Certificate III in Business	No pre-requisite is required.
SIS30115/ SIS20115 Certificate III in Sport & Recreation/ Certificate II in Sport & Recreation	No pre-requisite required
This subject will incur a levy which may include consumables, excursion or camps.	

DISCLAIMER: THE COLLEGE MUST HAVE CERTAIN TEACHERS AND EQUIPMENT TO RUN THESE COURSES. IF THE SCHOOL LOSES ACCESS TO THESE RESOURCES, THE SCHOOL WILL ATTEMPT TO PROVIDE STUDENTS WITH ALTERNATIVE OPPORTUNITIES TO COMPLETE THE COURSE AND THE RELATED QUALIFICATIONS. THE SCHOOL RETAINS THE RIGHT TO CANCEL THE VOCATIONAL COMPONENT OF THE COURSE IF IT IS UNABLE TO MEET REQUIREMENTS. CORRECT AT THE TIME OF PRINTING 3/07/2021

### BUSINESS VET COURSE

### BSB30120 CERTIFICATE III IN BUSINESS

#### REGISTERED TRAINING ORGANISATION

Binnacle Training (RTO Code: 31319)

#### **DELIVERY OVERVIEW**

BSB30120 Certificate III in Business is delivered as a senior subject by qualified school staff via a third party arrangement with external Registered Training Organisation (RTO) Binnade Training. Students successfully achieving all qualification requirements will be provided with the qualification and record of results. Students who achieve at least one unit (but not the full qualification) will receive a Statement of Attainment.

Upon successful completion students will achieve a maximum 8 QCE credits.

#### **ENTRY REQUIREMENTS**

At enrolment, each student will be required to create (or simply supply if previously created) a <u>Unique Student Identifier (USI)</u>. A USI creates an online record of all training and qualifications attained in Australia.

#### LANGUAGE, LITERACY AND NUMERACY SKILLS

A Language, Literacy & Numeracy (LLN) Screening process is undertaken at the time of initial enrolment (or earlier) to ensure students have the capacity to effectively engage with the content. Please refer to Binnacle Training's <u>Student Information</u> document for a snapshot of reading, writing and numeracy skills that would be expected in order to satisfy competency requirements.

#### **COURSE OUTLINE**

Students will participate in the delivery of a range of business activities and projects within the school. Graduates will be competent in a range of essential workplace skills – including leadership and organisation, customer service, personal management, teamwork and relationships, business technology and financial literacy. Students will also investigate business opportunities.

#### ASSESSMENT

Program delivery will combine both class-based tasks and practical components in a real business environment at the school. This involves the delivery of a range of projects and services within their school community. A range of teaching/learning strategies will be used to deliver the competencies. These include:

- Practical tasks
- Hands-on activities involving customer service
- Group projects
- e-Learning projects

Evidence contributing towards competency will be collected throughout the course.

#### COURSE SCHEDULE - YEAR 1

- Introduction to the Business Services Industry
- Personal Wellbeing in the Workplace
- Organise Personal Work Priorities
- Financial Literacy Be MoneySmart
- Workplace Health and Safety and Sustainable Work Practices
- Inclusive Work Practices and Workplace Communication

#### COURSE SCHEDULE - YEAR 2

- Working in a Team
- Critical Thinking Skills
- Creating Electronic Presentations
- Producing Business Documents
- Delivering Customer Service

Finalization of qualification: BSB30120 Certificate III in Business

#### **PATHWAYS**

The Certificate III in Business will predominantly be used by students seeking to enter the Business Services industries. For example:

- Administration Officer
- Customer Service Assistant
- Duty Manager

Students may also choose to continue their study by completing the Certificate IV or Diploma (e.g. Business or Tourism) at another RTO or a Bachelor of Business, or similar, at a University.

#### COST

 \$300 Binnacle Training Fee, Boss Project, Excursions and Administration costs.

#### PROGRAM DISCLOSURE STATEMENT

This Subject Outline is to be read in conjunction with Binnacle Training's Program Disclosure Statement (PDS). The PDS sets out the services and training products Binnacle Training provides and those services carried out by the 'Partner School' (i.e. the delivery of training and assessment services).

To access Binnacle's PDS, visit: <a href="www.binnacletraining.com.au/rto">www.binnacletraining.com.au/rto</a> and select 'RTO Files'.

# SPORT AND RECREATION VET COURSE

#### SIS30115 CERTIFICATE III IN SPORT AND RECREATION + SIS20115 CERTIFICATE II IN SPORT AND RECREATION

#### REGISTERED TRAINING ORGANISATION

Binnacle Training (RTO Code: 31319)

#### **DELIVERY OVERVIEW**

SIS30115 Certificate III in Sport and Recreation (with entry qualification SIS20115 Certificate II in Sport and Recreation) is delivered as a senior subject by qualified school staff via a third party arrangement with external Registered Training Organisation (RTO) Binnacle Training. Students successfully achieving all qualification requirements will be provided with the qualification and record of results. Students who achieve at least one unit (but not the full qualification) will receive a Statement of Attainment.

Successful completion of the Certificate III in Sport and Recreation contributes a maximum 7 credits towards a student's QCE. This Binnacle program also includes an opportunity for students to undertake an additional 4 units of competency (Term 7 Add-On). Completing this 'Term 7 Add-On' as well can result in a maximum 8 QCE credits (a maximum of 8 credits from the same training package can contribute to a QCE).

#### **ENTRY REQUIREMENTS**

At enrolment, each student will be required to create (or simply supply if previously created) a <u>Unique Student Identifier (USI)</u>. A USI creates an online record of all training and qualifications attained in Australia.

#### LANGUAGE, LITERACY AND NUMERACY SKILLS

A Language, Literacy & Numeracy (LLN) Screening process is undertaken at the time of initial enrolment (or earlier) to ensure students have the capacity to effectively engage with the content. Please refer to Binnacle Training's <u>Student Information</u> document for a snapshot of reading, writing and numeracy skills that would be expected in order to satisfy competency requirements.

#### **COURSE OUTLINE**

Students will participate in the delivery of a range of sport activities and programs within the school. Graduates will be competent in a range of essential skills – including officiating games or competitions, coaching beginner participants to develop fundamental skills, effective communication skills, providing quality service to participants, and using digital technologies in sport environments. This program also includes the following:

- First Aid qualification and CPR certificate
- Officiating and coaching accreditations (general principles or, in certain cases, sport-specific)
- A range of career pathway options including dub level official and/or coach, or pathway into Certificate IV or Diploma (e.g. Sport and Recreation or Fitness) at another RTO.

#### ASSESSMENT

Program delivery will combine both class-based tasks and practical components in a real sport environment at the school. This involves the delivery of a range of sport programs to real participants within the school community (high school and primary school students). A range of teaching/learning strategies will be used to deliver the competencies.

These include practical activities involving participants, group work and practical experience within the school sporting programs. Evidence contributing towards competency will be collected throughout the course.

#### COURSE SCHEDULE - YEAR 1

- The Sport, Fitness and Recreation Industry
- Officiating/Coaching General Principles
- Work Health and Safety in Sport and Fitness
- Delivery of Community Sport Programs & Customer Service
- First Aid and CPR Certificate

Finalisation of qualification: SIS20115 Certificate II in Sport and Recreation

#### COURSE SCHEDULE - YEAR 2

- Developing Coaching Practices
- Organising Work Schedules
- Facilitating Groups
- Planning and Conducting Sport Programs
- Personal Development
- Sport-Specific Coaching Sessions

Finalisation of qualification: SIS30115 Certificate III in Sport and Recreation

#### **PATHWAYS**

The Certificate III in Sport and Recreation will predominantly be used by students seeking to enter the sport, fitness and recreation industry as a community coach, sports coach, athlete, volunteer or activity assistant.

Students eligible for an Australian Tertiary Admission Rank (ATAR) may be able to use their completed Certificate III to contribute towards their ATAR. For further information please visit <a href="https://www.qcaa.qid.edu.au/senior/australian-tertiary-admission-rank-atar">https://www.qcaa.qid.edu.au/senior/australian-tertiary-admission-rank-atar</a>

Students may also choose to continue their study by undertaking the Certificate IV or Diploma (e.g. Sport Coaching or Fitness) at another RTO.

#### COST

- \$265.00 = Binnacle Training Fee Certificate II entry qualification
- \$70.00 = Binnacle Training Fee Certificate III Gap Fee
- \$55,00 = First Aid Certificate costs
- {5 insert here} = Excursions to other outside venues to participate in and to conduct sport activities.

#### PROGRAM DISCLOSURE STATEMENT

This Subject Outline is to be read in conjunction with Binnacle Training's Program Disclosure Statement (PDS). The PDS sets out the services and training products Binnacle Training provides and those services carried out by the 'Partner School' (i.e. the delivery of training and assessment services).

To access Binnacle's PDS, visit: <a href="www.binnacletraining.com.au/rto">www.binnacletraining.com.au/rto</a> and select 'RTO Files'.

Binnacle

Training

RTO Cody 31919

#### What is VETiS?

Vocational education and training (VET) in Schools (VETiS) is the delivery of nationally recognised training to secondary school students, providing them with the skills and knowledge required for employment in specific industries.

#### Qualification Details

The qualification CPC10120 Certificate I in Construction provides an introduction to the construction industry, its culture, occupations, job roles and workplace expectations.

The units of competency within the qualification cover essential work health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials.

There are no entry requirements and possible career pathways include:

Carpenter

Plaster

Bricklayer

Painter

O Tiler

Plumber

#### Course Information

The Blue Dog Training VETiS program is a partnership between a student's school and Blue Dog Training for the delivery of the specified qualification.

Secondary school students are enrolled as a student with Blue Dog Training and their qualification or statement of attainment is issued by Blue Dog Training.

Training and assessment are via Blue Dog Training's blended mode of delivery which comprises both on-line training and face to face classroom-based training at the school workshop.

Blue Dog Training trainers and assessors attend the school on a structured basis throughout the school year.

#### Course Duration

Typically commencing in Year 10 or 11 and delivered in the school workshops, during normal school hours as a part of the student's regular school timetable, the course is completed over a period of two (2) years.

A student can only participate in a Blue Dog Training VETiS program with the permission of their school.

#### Funding and Eligibility

The Department of Employment, Small Business and Training (DESBT) provides funding for secondary school students to complete one (1) approved VETiS qualification while at school, referred to as 'employment stream' qualifications.

This means that if a student is eligible, the course is provided to them fee-free. To be eligible to enroll in a Blue Dog Training VETiS program, students must:

- be aged 15 years or older
- be currently enrolled in secondary school
- permanently reside in Queensland
- be an Australian citizen, Australian permanent resident (includes humanitarian entrant), temporary resident with the necessary visa and work permits on the pathway to permanent residency, or a New Zealand citizen
- not already completing or have already completed a funded VETiS course with another registered training organisation.

For more information on government funding for VETIS can be accessed at: https://desbt.gld.gov. au/training/providers/funded/vetis

In situations where a school student is not eligible for funding, under the DESBT funding arrangements, fee for service arrangements are available for students through Blue Dog Training.

# **VET IN SCHOOLS PROGRAM**

#### CPC10120 Certificate in Construction

To achieve this qualification, a student must demonstrate competency in 11 units of competency as follows:

8 core units of competency and

3 elective units of competency.

#### Core

CPCCCM2004\* Handle construction materials

CPCCCM2005\* Use construction tools and equipment

CPCCCM1011 Undertake basic estimation and costing

CPCCOM1012 Work effectively and sustainably in the construction industry

CPCCOM1013 Plan and organise work

CPCCVE1011 Undertake a basic construction project

CPCCWHS1001# Prepare to work safely in the construction industry

CPCCWHS2001 Apply WHS requirement, policies and procedures in the construction industry

#### Elective

CPCCOM1014 Conduct workplace communication

CPCCOM1015 Carry out measurements and calculations

CPCCOM2001\* Read and interpret plans and specifications

#### NOTES

 Prerequisite units of competency - An asterisk (\*) against a unit of competency code in the list above indicates there is a prerequisite requirement that must be met.

Prerequisite unit(s) of competency must be assessed before assessment of any unit of competency with an asterisk.

# Mandatory Workplace Health and Safety (WHS) training - The unit CPCCWHS1001 Prepare to work safely in the construction industry is designed to meet WHS regulatory authority requirements for WHS induction and must be achieved before access to any building and construction work site.

Successful completion of this unit of competency as part of this Blue Dog Training VETiS program will result in the student being issued with a Workplace Health and Safety Queensland Construction Induction "White Card".

More information on this qualification is available at: https://training.gov.au/Training/Details/CPC10120

#### What is VETiS?

Vocational education and training (VET) in Schools (VETiS) is the delivery of nationally recognised training to secondary school students, providing them with the skills and knowledge required for employment in specific industries.

#### Qualification Details

The qualification MEM20413 provides students with an introduction to an engineering or related working environment.

Students gain skills and knowledge in a range of engineering and manufacturing tasks which will enhance their entry-level employment prospects for apprenticeships, traineeships or general employment in an engineering-related workplace. Possible apprenticeship career pathways include:

- Engineering Fabrication Trade (Boilermaking/ Welding)
- Engineering Fabrication Trade (Sheetmetal working)
- Engineering Mechanical Trade (Fitting and/or Turning)
- Engineering Mechanical Trade (Machining)
- Engineering Mechanical Trade (Diesel Fitting/Fixed & Mobile Plant Mechanic)

#### Course Information

The Blue Dog Training VETiS program is a partnership between a student's school and Blue Dog Training for the delivery of the specified qualification. Secondary school students are enrolled as a student with Blue Dog Training and their qualification or statement of attainment is issued by Blue Dog Training.

Training and assessment are via Blue Dog Training's blended mode of delivery which comprises both on-line training and face to face classroom-based training at the school workshop. Blue Dog Training trainers and assessors attend the school on a structured basis throughout the school year.

#### Course Duration

Typically commencing in Year 10 or 11 and delivered in the school workshops, during normal school hours as a part of the student's regular school timetable, the course is completed over a period of two (2) years.

A student can only participate in a Blue Dog Training VETIS program with the permission of their school.

#### **Funding and Eligibility**

The Department of Employment, Small Business and Training (DESBT) provides funding for secondary school students to complete one (1) approved VETiS qualification while at school, referred to as 'employment

stream' qualifications. This means that if a student is eligible, the course is provided to them fee-free. To be eligible to enroll in a Blue Dog Training VETiS program, students must:

- be aged 15 years or older
- be currently enrolled in secondary school
- permanently reside in Queensland
- be an Australian citizen, Australian permanent resident (includes humanitarian entrant), temporary resident with the necessary visa and work permits on the pathway to permanent residency, or a New Zealand citizen
- not already completing or have already completed a funded VETiS course with another registered training organisation.

For more information on government funding for VETiS can be accessed at: https://desbt.gld.gov.au/training/providers/funded/vetis

In situations where a school student is not eligible for funding, under the DESBT funding arrangements, fee for service arrangements are available for students through Blue Dog Training.

Call one of our industry-current trainers for more information

Effective as of 31 December 2021. For most recent updates, visit www.bluedogtraining.com.au

# **VET IN SCHOOLS (VETIS) PROGRAM**

#### MEM20413 Certificate II in Engineering Pathways

To achieve this qualification, a student must demonstrate competency in 12 units of competency as follows:

Four (4) core units of competency and

Eight (8) elective units of competency.

#### Core

MEM13014A Apply principles of occupational health and safety in the work environment

MEMPE005A Develop a career plan for the engineering and manufacturing industry

MEMPE006A Undertake a basic engineering project

MSAENV272B Participate in environmentally sustainable work practices

#### Elective

MEM18001C Use hand tools

MEM16008A Interact with computing technology

MEM18002B Use power tools/hand held operations

MEMPE002A Use electric welding machines

MEM16006A Organise and communicate information

MSAPMSUP106A Work in a team

MEMPE007A Pull apart and reassemble engineering mechanisms

MEMPE001A Use engineering workshop machines

More information on this qualification is available at: https://training.gov.au/Training/Details/MEM20413.

### Delivered in Partnership with TAFE Queensland RTO Number: 0275

### SIT20416 Certificate II in Kitchen Operations

TAFE Queensland and St Joseph's College Toowoomba have partnered under a Third Party Training Agreement to deliver this course. Under this arrangement, TAFE Queensland is the Registered Training Organisation (RTO No. 0275) and St Joseph's College Toowoomba will conduct all training and assessment on behalf of TAFE Queensland. TAFE Queensland is responsible for monitoring the quality of the training and assessment services and will issue the qualification award to students upon their completion.

## Delivered in Partnership with TAFE Queensland RTO Number: 0275

Learning	c Communication in the workplace
areas	o Cookery Skills
	o Customer service
	o The hospitality industry
	Workplace health and safety
	o Prepare and present food
Assessment	Assessment is conducted online by accessing the TAFE Queensland Portal powered by IVET as well as completing practical tasks that will be observed by your teacher and recorded in the TAFE Queensland Portal. This may consist of a number of integrated assessment tools such as observations, projects, case studies and quizzes.
	Assessment is competency based because it is directly related to work. Students must demonstrate knowledge and skills to the standard of performance required in the workplace. Therefore, no levels of achievement are awarded.
Further study options	Certificate III in Commercial Cookery (SIT30816) → Certificate IV in Commercial Cookery (SIT40516) → Diploma of Hospitality Management (SIT50416)
Fees	VETis Funded - \$0 or Fee for Service - \$250
Learner support	St Josephs' College student assistance program is responsible for ensuring students receive appropriate levels of support during the course. Contact the school's Head of Senior Schooling or VET Coordinator for information about support services including language, literacy and numeracy, assistive technology, additional tutorials and assistance in using technology.
Third Party Agreement	St Joseph's College will ensure that the students under this qualification will be provided with the opportunity to complete the course in line with TAFE Queensland policies and procedures. Students who successfully finish the course will be issued with a nationally recognised qualification by TAFE Queensland as the RTO. Students who achieve at least one unit (but not the full qualification) will receive a Statement of Attainment on request.
	This information is correct at time of publication 28 June 2021 but is subject to change.

### ICT30120 Certificate III in Information Technology

IVET and St Joseph's College Toowoomba have partnered under a Third-Party Training Agreement to deliver this course. Under this arrangement, IVET is the Registered Training Organisation (RTO No. 40548) and St Joseph's College Toowoomba will conduct all training and assessment on behalf of IVET. IVET is responsible for monitoring the quality of the training and assessment services and will issue the qualification award to students upon their completion.
